The Product is not designed for customers who:

- Are purchasing or refinancing a property to reside in themselves.
- Are purchasing a property for multiple occupancy (HMO) or a Multi-Unit Freehold Block (MUFB)
- Are unable to read, write, speak and understand English.
- Have a property with an EPC rating of 'F' or 'G'
- Do not meet our finance or property criteria.

4. Customers with characteristics of vulnerability

The Product is designed for people looking for Shariah-compliant or ethical finance up 80% FTV on a property to let in England or Wales, which is likely to include some customers with characteristics of vulnerability or who will experience vulnerability over time.

There are limited options in the market for Shariah-compliant finance and the differences to a conventional 'mortgage' are not widely understood.

Therefore, potential customers may require additional advice and support to ensure they understand the information being presented to them and the implications of the arrangement they are entering into, to reduce the risk of harm occurring.

We considered the needs, characteristics and objectives of customers with characteristics of vulnerability at all stages of the design process for this Product to ensure the Product meets their needs.

We have in place a framework to achieve good outcomes for vulnerable customers, which includes:

- Education and training for our staff to ensure they have the appropriate skills and experience to recognise and respond to the needs of vulnerable customers.
- Suitable customer service provision and communications.
- Flexible policies, where appropriate, to support vulnerable customers' individual needs.
- Monitoring to ensure we continue to meet and respond to the needs of customers with characteristics of vulnerability.

Intermediaries should continue to comply with their obligations to ensure that you treat customers in vulnerable circumstances fairly.

Please contact us if you need any further information about how we support the needs of all our customers in relation to the Product.

5. Our assessment of value

We have evaluated several aspects of our business to determine the value of our Home Finance product. This analysis is used to ascertain whether the Product delivers fair value for customers.

The outcomes of the assessment process are presented to the applicable approval committee within the Bank, allowing for challenge and further investigation before we sign-off the outcomes. Below we share the summary of our assessment with you.

Our fair value assessment has considered the following:

Benefits	Price	Costs	Limitations
The range of features and options that the Product provides (including Shariah compliance), the quality of the Product, the fact customers only pay their own Solicitor fees, the level of customer service that is provided and any other features that the Product may offer.	The profit rates, fees and charges customers pay for the Product, advice fees paid to intermediaries and non-financial costs associated with operating the Product as a Specialist provider.	The cost of funding the Product and any other reductions in costs to the customer made possible by economies of scale, driven by the Shariah principles to be Fair & Transparent around costs.	Any limitations on the scope and service we provide or the features of the Product.

Results of our assessment

Our most recent assessment conducted a part of our product change on 01 April 2026, has concluded that the product continues to deliver fair value for customers in the target market for the Buy to Let – Single Occupancy Product.
